Projects

My Portfolio

- Created a website to display my technical skills
- Used React, React Router, and CSS to create the content of the site
- Used React 3 Fiber, Three.js, and GLSL to create the 3D scene
- Hosted the site with Vercel and used Vite as my build tool

Galaxy Generator

- Started with a 3D galaxy project I made in Three JS Journey
- Turned the project into a more modular OOP style structure to allow users to create multiple instances of different galaxies
